We are hoping this finds you and yours in a safe and warm environment. If it impacted your family or simply your news feed, the historical weather event and associated power grid situation in Texas has been difficult and devastating for so many people.

At Santé, our first priority during this time has been to keep clients and staff safe and to continue delivering the best services in spite of the situation. If you are or have been directly impacted, please do let us know how we can support you and your family.

Our best to you...

Staff Sentiments

Step Two

"Came to believe that a Power greater than ourselves could restore us to sanity."

Some people are wary of Alcohol Anonymous because of its religious connotations. The hope of healing and trusting in a Higher Power can be difficult for addicts to embrace. However, the Higher Power can come to mean something different for different people. "The hoop you have to jump through is a lot wider than you think." ¹ Not only are there "wider" options on what Higher Power can mean, but people can also take their time to figure it out. We aren't required to believe any specific thing while working the 12 Steps, but it is just suggested to keep an open mind and see

what happens while moving through the steps. Developing an open mind to consider change, challenging one's beliefs, and taking action is not an easy task, but it is important for those desiring long-term recovery to understand there is hope and healing. One must be able to hope and trust that there is a lasting recovery for themselves, that they are worth it, and that embracing the concept of a Higher Power is part of the process to restore sanity and gain a lasting recovery. And for us at Santé...it's all about the long-term recovery!

For All The Right Reasons

You are mission-inspired and results-driven. You chose your profession and calling for all the right reasons. Your work helps people in their most hidden and painful problems every day.

The importance of your work is underscored by how incredibly hard it is. Any given day might bring massive challenges with your clients or patients. Who else is in it for all the right reasons? Who can you trust to work alongside you, providing evidence-based and trauma-resolution care? Who provides the best opportunity for long-term recovery?

Google provides 350,000,000 results when searching “addiction treatment.” This is an overwhelming number of options that you can ascertain for quality, but can your clients or patients?

They look to you to:

- Distinguish clinical experience and expertise from nonessential amenities and impersonal call centers;
- Connect them to higher levels of care ready for the increasing complexity of their problems and to discover and begin to heal from the root issues underneath, therefore decreasing the likelihood of relapse;
- Recognize other facilities may dress the part but lack integrity.

They look to you. And you look to Santé Center for Healing for expertise, integrity and long-term recovery...for all the right reasons.
