Maintaining Proper Boundaries

Next Course Offered: November 4-6, 2020 *

Maintaining Proper Boundaries, is a 3-day training course providing self-assessment, knowledge, awareness, skills, applicable tools and prevention strategies to healthcare professionals with difficulty maintaining proper boundaries with patients, colleagues and/or staff.

Who Should Attend:

This course is recommended to any licensed healthcare professionals in safety sensitive positions who experience difficulty establishing and maintaining proper boundaries. Hospitals, health systems, professional peer health programs may refer health care practitioners:

- as a preventative measure for continuing medical education specialized for healthcare professionals'
- as a behavior intervention
- or as an adjunct to a relapse prevention plan. Self-referrals are welcome.

Note Regarding COVID-19:

We will hold the November course in person and on our campus. Safety precautions will be in place to follow social distancing guidelines and to keep everyone healthy and safe. Those include: all participants will remain in the Welcome Center building for the entirety of the course; masks will be required at all times - walking from the car into the building and into and then in the classroom; temperature check upon arrival each day; and in the classroom, all participants will be intentionally spaced further apart.

Family Therapy Vs. Individual Therapy: Which One is Better?

By Jessica Hope Murph LMFT, LCDC at [Beyond Boundaries Counseling RGV](#)

Family relationships are one of the strongest units, with each bond holding a special place in life. However, once in a while, these relationships can experience problems and require some guidance to make the bond healthy.

This is when family therapy comes into the scene where professionals help you

achieve a peaceful home life. These counselors or therapists set family therapy goals to solve long-standing hurdles in the family or that of an individual.

How is family therapy different from individual therapy?

While individual therapies concentrate on a person's personal struggles, the purpose of family therapy is to look outside an individual and have a holistic approach during treatment of a problem.

Click below to read the full article, which includes 5 benefits of family therapy to help you understand the role of this strength-based treatment.

Take Care of Today so You Can Handle Tomorrow

Step Ten of the Twelve Steps is "Continued to take personal inventory and when we were wrong promptly admitted it." This is an important task that can be done daily and should continue no matter how long you've been in recovery. The quicker you can determine a wrong was

committed, admit to it and apologize for it, the better things are for your recovery and the relationship with that individual. Taking a daily inventory will help keep you in check emotionally and on the right path. As we enter the holiday season, this is a vital step for those who feel increased stress and have strained family relationships.

Alumni Support

Recovery is not something completed upon leaving a residential level of care program; it is an on-going process of learning and personal growth. Addiction, after all, is a chronic disease. To achieve long-term recovery it is imperative to stay connected. **This isn't about addition. This is about recovery.**

Santé offers opportunities to apply recovery skills, give service, develop new habits, deepen recovery knowledge, live out relapse prevention, and heal past and current relationships while making new relationships based on the foundation of recovery. Lifelong Santé alumni programming involves, but is not limited to: personal follow-up support; private Facebook community; road trips; recovery-enhancing experiences; text affirmations; Alumni Advisory Board; Annual Alumni Retreat; service opportunities; entertainment-based outings and monthly alumni newsletter. The goal in long-term recovery, and the support and experiences need to achieve it one day at a time.

D CEO's 2020 Excellence in Healthcare Awards

Santé's CEO, Dennis Wade, MS, FACHE, has been named as a finalist in the *D CEO's* 2020 Excellence in Healthcare Awards program. He is a finalist in the Outstanding Healthcare Advocate category.

D CEO is recognizing individuals and organizations keeping North Texas Healthy, especially during a worldwide pandemic. This year, there were over 200 excellent nominations and we are proud Dennis was among the finalists named from them. Click [here](#) to read the entire *D Magazine* announcement.

For 21 years, Dennis has led the Santé staff in exemplary work as an organization helping patients achieve a strong foundation for their recovery, even during a pandemic. There is a continuous focus on exemplifying the values of Santé; his leadership makes Santé a place of healing and hope. With excellent communication, teamwork, and taking action through the lens of Santé principles and values, he and

all the staff have been able to help get patients into the recovery process but also help them stay engaged in their treatment to achieve their therapeutic goals toward long-term recovery.

When asked what he loves about Santé, Dennis replies: ["To be able to deliver the highest quality of care to our patients for almost 25 years while maintaining the highest of standards through all of the ups and downs of the addiction treatment/mental health arena."](#)

Excellent treatment should not be rare, promoting recovery should not be overlooked, reducing stigma should not be hard, and showing compassion should not be uncomfortable. After more than four decades in the mental health industry and 21 years at Santé Center for Healing, Dennis Wade has done all of these things - quietly and without hesitation. When you meet Dennis, he will always direct your attention to the people working at Santé first as the reason for its longevity and the patients who commit to the hard word. We join D CEO in recognizing the incredible leadership Dennis has shown at Santé's helm in 2020 and all the preceding years.

For All The Right Reasons

You are mission-inspired and results-driven. You chose your profession and calling for all the right reasons. Your work helps people in their most hidden and painful problems every day.

The importance of your work is underscored by how incredibly hard it is. Any given day might bring massive challenges with your clients or patients. Who else is in it for all the right reasons? Who can you trust to work alongside you, providing evidence-based and trauma-resolution care? Who provides the best opportunity for long-term recovery?

Google provides 350,000,000 results when searching “addiction treatment.” This is an overwhelming number of options that you can ascertain for quality, but can your clients or patients?

They look to you to:

- Distinguish clinical experience and expertise from nonessential amenities and impersonal call centers;
- Connect them to higher levels of care ready for the increasing complexity of their problems and to discover and begin to heal from the root issues underneath, therefore decreasing the likelihood of relapse;
- Recognize other facilities may dress the part but lack integrity.

They look to you. And you look to Santé Center for Healing for expertise, integrity and long-term recovery...for all the right reasons.
