

“A Message from Ownership”

Truly we are thrilled to mark and celebrate Santé Center for Healing's 30th anniversary alongside you! This milestone is not just a reflection of how far the organization has come - it's a celebration of the thousands of individuals who bravely trusted Santé enough to face their addiction and trauma for the countless benefits found in long-term recovery. It is also a recognition of each and every Santé team member who contributed to those accomplishments along the way.

From our humble beginnings in 1996 on an overgrown horse farm in Argyle, TX purchased by two renowned, visionary therapists (who were also siblings) to where we stand today, our storied growth and clinical reputation have been fueled by dedication, innovation, and the unwavering focus on providing long-term recovery with integrity, efficacy and compassion. Each and every person who has entered our doors - prospective patients and clients plagued by addiction, supportive families and friends of loves ones in active addiction, collaborative colleagues in the mental and behavioral health field, beloved alumni, and loyal staff - has played an essential role in shaping Santé's story, and we couldn't be more grateful. We see it as a privilege to be a part of their stories, too.

That maverick spirit in 1996 advocated what we still know to be true: evidence-based treatment works, everyone deserves to be treated with dignity, and Santé's combination of compassion and clinical prowess could make a long-term difference in countless lives, even those with complex issues.

And leadership and ownership matters. The founding families wouldn't sell to investor-owned corporations who would have prioritized spreadsheets, doubled the bed count and reduced staff, ultimately losing focus on providing recovery to those we have the privilege to serve. So when the two founding families entering retirement did sell Santé in 2024, they would only sell to the families of Santé executive staff members who then had a combined 30 years of Santé experience and are leading on the Santé campus each and every day. The result? Santé's values and our DNA of integrity continues to show up each and every day.

Over the past 30 years, we've achieved remarkable milestones: individualized and concurrent treatment for those experiencing dual diagnosis and poly-addiction even in the

face of managed care; award winning research and publications on compulsive sexual behavior; developing a therapeutic and medical continuum of care to best support recovery (medical detox, enhanced Residential Programming facilities, expanded Intensive Outpatient Program options, area outpatient clinic, three-pronged family programming, and a life-long Alumni program). These accomplishments remind us that success is and always has been a significant and intentional team effort.

As we look to the future, we remain committed to our mission: **Left untreated, addiction is a fatal disease. With the highest caliber staff utilizing our evidence-based therapeutic and medical continuum of care, Santé Center for Healing's mission is to provide the resources for long-term recovery. United there is hope.** With your continued trust and support, we're confident the next chapter will be even more exciting.

Thank you for believing in Santé and for being part of this incredible journey. We are proud of our distinguished past. But it is to the future we look for even greater achievements... all for you and for long-term recovery!

And if you're considering treatment for yourself or a loved one, **the only thing that can upstage our 30 years of recovery, is yours!** Call us today.

Here's to another 30 years... one day at a time,

Keith Klein, MS, CPA Michelle Luttrell, LMFT-S, MBS, MHA Sam Slaton, M.Ed., LPC, MBA, MHSM
