

WHY CHOOSE
SANTÉ CENTER FOR HEALING?

The Santé Advantage

Furthering a community
where **lives are defined by
recovery, not by addiction.**
Because left **untreated,**
addiction is a fatal
disease.

Privately owned and therapist operated
since 1996

With more than 30 years of life-changing impact,
we are proud of our distinguished past and look
to the future for even greater achievements.

THE SANTÉ ADVANTAGE

- Privately owned and therapist operated since 1996; **never** investor owned or operated.
- **Individualized treatment** in an intimate environment.
- **Expertise** in the interaction between substance use disorder, mental health, compulsive sexual behavior and co-occurring disordered eating; address and treat concurrently.
- **Team approach** - each client's treatment team includes: primary therapist, psychiatrist, nurse, dietitian, mental health technicians, family therapist, discharge/aftercare planner, alumni team and support staff.
- All clinicians are **masters level (minimum)** with additional training, certifications and credentialing.
- **Medical staff** - Santé's Medical Director, psychiatrists, addictionologists, psychiatric nurse practitioners, and nurses see clients regularly and as part of the continuum of care.
- **Deep, life-changing work.** We won't tell you that this is easy or that 30 days or less is a quick fix.
- Providing **individualized and therapist-led support** to the friends and family surrounding our clients to increase the health and recovery-supportive ecosystem.
- Hold ourselves to a higher standard than the industry's norm, as evidenced by double accreditation from CARF (since 2015) and The Joint Commission (since 2024).
- **Masters-level clinicians** - not a call center - are available via phone 24 hours a day, 7 days per week.
- **We remove barriers to treatment** by being in network with dozens of insurance panels, offering diverse financial options and customizing plans for each client and family. You could invest in the medical, legal and product expenses of active addiction -OR- invest in proven treatment for meaningful recovery.
- Stunning, 16-acre location offering evidence based **recovery continuum of care** (assessments, medical detox, residential, intensive outpatient program, family services, outpatient counseling, medication management, and alumni services).
- **Individualized relapse prevention planning** is a critical piece of the recovery journey, especially for those who have experienced chronic relapses previous to Santé.
- Recovery is a lifelong process and Santé's alumni support is, too.
- **WE WON'T GIVE UP ON OUR CLIENTS.**
